LEGEND

Column No.	Title	Explanation
1.	COM CODE	Computer Code of the Course
2.	COURSE NO	Course Number
3.	COURSE TITLE	Course Title
4.	CREDIT (L P U)	L and P correspond to Lecture and Practical component respectively and U is the total unit of the course
5.	STAT	Type/ Status of the component: L = Lecture, T = Tutorial, P = Practical, R = Project type component
6.	SEC	Section number
7.	INSTRUCTOR-IN-CHARGE/Instructor	Instructor Name in CAPITAL LETTERS indicates INSTRUCTOR-IN-CHARGE Other Names are of Instructors
8.	DAYS/H	M = Monday T = Tuesday W = Wednesday TH = Thursday F = Friday S = Saturday H = Hour (1 = 8 AM, 2 = 9 AM ...)
9.	ROOM	The letter(s), A, B, C, CC & D of the room number indicate the wing in which the room is located. First digit in the room number for class rooms indicates the floor: 1 for ground floor , 2 for first floor etc Second and third digits in the room number for class rooms indicate the serial number of the room. LT1, LT2, LT3, LT4, DLT5, DLT6, DLT7, DLT8 are the Lecture theatres 1, 2, 3, 4, 5, 6, 7,8 respectively. D-Wing is the new academic block.
10.	COMPREHENSIVE EXAM TIME	FN: 10 AM to 1 PM AN: 2 PM to 5 PM (TBA= To Be Announced)

COURSE HANDOUT

Each course will have a Course Handout, which will describe all the operational details of the course. This will be in two parts. While Part I describes the general operational details applicable to all courses, Part II will describe the specific details for a particular course in terms of lecture-wise plan, reference material, evaluation schedule, etc. The Part I of the handout is given below and the respective course instructors will distribute Part II of the handout to the students during the first week of classwork.

COURSE HANDOUT PART-I

1. **Textbook:** Refer to the Timetable for the textbook of the course and also in the course handout (Part II).
2. **Attendance:** Every student is expected to be regular in attendance in all classes, laboratories, tests, quizzes, seminars, etc. and in fulfilling all tasks assigned to him/her. Attendance will be recorded.
3. **Home Assignment:** Every student must submit promptly and properly all home assignments (For details, see part II).
4. **Reading Assignment:** Every student must complete his/her reading assignment and come prepared to the class (For details see part II).
5. **Evaluation Scheme Guidelines**

For all structured courses, the evaluation component shall include **Midsemester Examination (March 03 (M) to March 09 (Su))** and **Comprehensive Examination (May 01 (Th)– May 17 (S))**, besides other evaluation components such as labs, projects, **seminars**, term papers, assignments, quizzes, online components etc. In line with the spirit of continuous evaluation, the tests and other evaluation components shall be conducted by the course instructor(s) and it shall be evenly spaced throughout the semester. The following table provides necessary details that enable the IC to design the evaluation scheme in each of their structured course(s):

Evaluation Component	Weightage(%)	Duration (Minutes)	Date of Evaluation
Midsemester Examination	25-35	90	As announced in Timetable
Other Evaluation Components	25-35	As decided by the Instructor(s)	Evenly spaced throughout the semester(To be completed ten days before the last day of classwork)
Comprehensive Examination	30-40	180	As announced in Timetable

Weightage of surprise components and attendance, combined, can't be more than 10% of the course.

Minimum 20% of the components should be open book.

6. Make-up

Make-up for any component of evaluation will be given only in **genuine cases of absence**. If the absence is anticipated, prior permission of the instructor-in-charge is necessary. In other exceptional circumstances the request for make-up should reach the Instructor-in-charge [Associated Dean, AUGSD in case of Comprehensive examination] at the earliest.

7. Return of Evaluated Answer books

Instructors will ensure timely return of the evaluated answer books with constructive feedback to students. This will be done within 10 days of the completion of the exam.

8. Discussion of Performance

At the time of or before the distribution of evaluated answer books, performance vis-a-vis the expected correct answers will be discussed. The highest, lowest, and average marks will also be announced simultaneously.

9. Pre-comprehensive Total

Students must check their pre-comprehensive total of marks with their respective instructors before the comprehensive examination.

10. Final Grading

The total marks of all students in the course will be tabulated in a descending order (equivalently a histogram). The performance of the class will be analyzed in terms of average, highest and lowest marks and dividing lines between various clusters. Gaps between clusters and the nature of clusters will guide drawing the dividing lines between various grades. In a normal class of large size, the C-band will usually include the average mark. This is not a hard and fast rule, and exceptions may arise in cases of small classes, a skewed histogram etc. Border line cases will be decided on a case by case basis keeping in view the consistency of performance, progressive improvement, exceptionally good performance in comprehensive examination, regularity of attendance and class participation etc. If a student gives the instructor inadequate opportunity to evaluate him/her by absenting himself from various components of evaluation, or by appearing in the same for the sake of appearance without applying himself/herself to the task in hand or by submitting a blank script (answer book) he/she will get an NC report (ref. Academic Regulations 4.19, 4.20).

11. Consultation Hours

Each instructor will specify the consultation hour(s) during which the student can contact him/her for consultation.
(For details see part II)

12. Notice

Notices concerning a course will be displayed on the corresponding online course pages/ platform. Notices regarding Registrations, Midsemester Examination and Comprehensive Examination will be communicated through official email.
